Representatives or experts of Switzerland or experts designated by Switzerland shall be allowed to take part as observers, unless it concerns points reserved only for Member States or in relation to a Union programme or activity, or part thereof, in which Switzerland is not participating, in the committees, expert groups meetings or other similar meetings where representatives or experts of the Member States, or experts designated by Member States take part, and which assist the European Commission in the implementation and management of the Union programmes or activities, or parts thereof, in which Switzerland participates in accordance with Article 3 of this Agreement or are established by the European Commission in respect of the implementation of the Union law in relation to those Union programmes or activities, or parts thereof. The representatives or experts of Switzerland, or experts designated by Switzerland shall not be present at the time of voting. Switzerland shall be informed of the result of the vote.
2. Where experts or evaluators are not appointed on the basis of nationality, nationality shall not be a reason to exclude Switzerland's experts or evaluators.
3. Subject to the conditions set out in paragraph 1, the participation of the Switzerland representatives in the meetings referred to in that paragraph, or in other meetings related to the implementation of Union programmes or activities, shall be governed by the same rules and procedures as those applicable to representatives of the Member States, concerning speaking rights, receipt of information and documentation unless it concerns points reserved only for Member States or in relation to a Union programme or activity, or part thereof, in which Switzerland is not participating, and the reimbursement of travel and subsistence costs.

The protocols to this Agreement may define further terms and conditions for the participation of experts, as well as the participation of Switzerland in governing boards and structures created for the purpose of implementing Union programmes or activities defined in the respective protocols to this Agreement.

ARTICLE 7

Financial conditions

1. The participation of Switzerland or Swiss entities in Union programmes or activities, or parts thereof, shall be subject to Switzerland contributing financially to the corresponding funding under the Union budget.

2. The financial contribution shall take the form of the sum of:

(a) an operational contribution; and

(b) a participation fee.

3. The financial contribution shall take the form of an annual payment made in one or more instalments.

4. Without prejudice to paragraph 8 of this Article, the participation fee shall be 4 % of the annual operational contribution and shall not be subject to retrospective adjustments except in relation to suspension under Article 19. In case of suspension under Article 19, the participation fee shall be adjusted in line with the adjustment of the operational contribution. As of 2028 the level of the participation fee may be adjusted by the Joint Committee.

5. The operational contribution shall cover operational and support expenditure and be additional both in commitment and payment appropriations to the amounts entered in the Union budget definitively adopted for Union programmes or activities, or parts thereof, increased, where appropriate, by external assigned revenue that does not result from financial contributions to Union programmes and activities from other donors, as defined in a protocol to this Agreement.
6. The operational contribution shall be based on a contribution key defined as the ratio of the Gross Domestic Product (hereinafter referred to as "GDP") of Switzerland at market prices to the GDP of the Union at market prices. For that purpose, the figures for GDP at market prices of the Contracting Parties shall be the latest such figures available as of 1 January of the year in which the annual payment is made as provided by the Statistical Office of the European Union (EUROSTAT), with due regard to the Agreement between the European Community and the Swiss Confederation on cooperation in the field of statistics, done at Luxembourg on 26 October 2004. If that agreement ceases to apply, the GDP of Switzerland shall be the one established on the basis of data provided by the Organisation for Economic Co-operation and Development.
7. The operational contribution shall be based on the application of the contribution key to the initial commitment appropriations increased as described in paragraph 5 entered in the Union budget definitively adopted for the applicable year for financing the Union programmes or activities, or parts thereof, in which Switzerland participates.
8. The participation fee referred to in paragraph 2 shall have the following values in the years 2025 to 2027:
- 2025: 2.5 %;

- 2026: 3 %;
- 2027: 4 %.

9. Upon request, the European Commission shall provide Switzerland with information in relation to its financial participation as included in the budgetary, accounting, performance and evaluation related information provided to the Union budgetary and discharge authorities concerning the Union programmes and activities, or parts thereof, in which Switzerland participates. That information shall be provided having due regard to the Union's and Switzerland's confidentiality and data protection rules and is without prejudice to the information which Switzerland is entitled to receive under Article 12.

10. All financial contributions of Switzerland or payments from the Union, and the calculation of amounts due or to be received, shall be made in euro.

11. Detailed provisions for the implementation of this Article are set out in the respective protocols to this Agreement as well as in the Annex to this Agreement on Financial Implementation Provisions.

ARTICLE 8

Programmes and activities to which an adjustment mechanism of the operational contribution applies

1. If so provided in a protocol to this Agreement, the operational contribution of a Union programme or activity, or part thereof, for year N may be adjusted upwards and downwards retrospectively in one or more subsequent years on the basis of the budgetary commitments made on the commitment appropriations of that year, their implementation through legal commitments and their decommitment.

2. The first adjustment shall be made in year N+1 when the operational contribution shall be adjusted by the difference between the contribution and an adjusted contribution calculated by applying the contribution key of year N, adjusted via the application of a coefficient if the protocol concerned so provides, to the sum of:
- (a) the amount of budgetary commitments made on commitment appropriations authorised in year N under the Union budget and on commitment appropriations corresponding to decommitments made available again; and
 - (b) any external assigned revenue appropriations that do not result from financial contributions to Union programmes and activities from other donors covered in the protocols to this Agreement and that were available at the end of year N.
3. Each subsequent year, until all the budgetary commitments financed under commitment appropriations originating from year N have been paid or decommitted and at the latest 3 years after the end of the Union programme or after the end of the MFF corresponding to year N, whichever is earlier, the Union shall calculate an adjustment of the contribution of year N by reducing Switzerland's contribution by the amount obtained by applying the contribution key, adjusted if the protocol concerned so provides, of year N to the decommitments made each year on commitments of year N financed under the Union budget or from decommitments made available again.
4. If external assigned revenue appropriations that do not result from financial contributions to Union programmes and activities from other donors covered by the protocols to this Agreement are cancelled, the contribution of Switzerland to the Union programme or activity concerned, or parts thereof shall be reduced by the amount obtained by applying the contribution key, adjusted if the protocol concerned so provides, of year N to the amount cancelled.

5. In year N+2 or in subsequent years, after having made the adjustments referred to in paragraphs 2, 3 and 4, the contribution of Switzerland for year N shall also be reduced by an amount obtained by multiplying the contribution of Switzerland for year N and the ratio of:

- (a) the legal commitments of year N, funded under any commitment appropriations available in year N, and resulting from competitive award procedures,
 - (i) from which Switzerland and Swiss entities have been excluded;
 - (ii) for which the deadline for submission of applications has expired during the suspension referred to in Article 19, or after termination referred to in Article 20 has taken effect; and
- (b) the total amount of legal commitments funded under any commitment appropriations of year N.

6. The amount of legal commitments, as described in paragraph 5, shall be calculated by taking all budgetary commitments made in year N and deducting the decommitments that have been made on those commitments in year N+1.

ARTICLE 9

Union programmes and activities, or parts thereof,
to which an automatic correction mechanism applies

1. An automatic correction mechanism shall apply in relation to a Union programme or activity, or part thereof, for which the application of an automatic correction mechanism is provided for in the basic act establishing that Union programme or activity and in the relevant protocol to this Agreement. The application of that automatic correction mechanism may be limited to parts of the Union programme or activity specified in the relevant protocol to this Agreement which are implemented through grants for which competitive calls are organised. Detailed rules on the identification of the parts of the Union programme or activity to which the automatic correction mechanism does or does not apply may be established in that protocol.
2. The amount of the automatic correction for a Union programme or activity, or part thereof, shall be the difference between the initial amounts of the legal commitments actually entered into with Switzerland or the Swiss entities financed from commitment appropriations of the year in question and the corresponding operational contribution paid by Switzerland as adjusted pursuant to Article 8 of this Agreement if the relevant protocol to this Agreement provides for such adjustment, excluding support expenditure, covering the same period.
3. Any amount referred to in paragraph 2 of this Article which for each of two consecutive years exceeds 8 % of the corresponding operational contribution of Switzerland to the Union programme as adjusted pursuant to Article 8 shall be due by Switzerland as an additional contribution under the automatic correction mechanism for each of those two years.

4. Detailed rules on the establishment of the relevant amounts of the legal commitments referred to in paragraph 2 of this Article, including in the case of consortia, and on the calculation of the automatic correction may be laid down in the Annex to this Agreement on Financial Implementation Provisions.

ARTICLE 10

Financing in relation to Union programmes implemented through financial instruments or budgetary guarantees

1. Where, in accordance with Article 3, Switzerland participates in a Union programme or activity, or part thereof, that is implemented through financial instruments or budgetary guarantees under the Financial Regulation, Switzerland shall provide a contribution to those financial instruments or budgetary guarantees in accordance with the Financial Regulation and the basic act establishing the Union programme or activity.

The amount contributed shall increase the Union budgetary guarantee or the financial envelope of the financial instrument.

2. Where appropriate, modalities for the implementation of this Article may be specified further in the relevant protocol.

ARTICLE 11

Reviews and audits

1. The Union shall have the right to conduct, in accordance with the applicable acts of one or more Union institutions or bodies and as provided in relevant agreements and contracts, technical, scientific, financial, or other types of reviews and audits on the premises of any natural person residing in or any legal entity established in Switzerland and receiving Union funding, as well as any third party involved in the implementation of Union funds residing or established in Switzerland. Such reviews and audits may be carried out by the agents of the Union institutions and bodies, in particular of the European Commission and the European Court of Auditors, or by other persons mandated by the European Commission. When exercising their duties in the territory of Switzerland, the agents and investigative bodies of the Union shall act in a manner consistent with Swiss law.
2. The agents of the Union institutions and bodies, in particular of the European Commission and the European Court of Auditors, and the other persons mandated by the European Commission, shall have appropriate access to sites, works and documents, in both electronic and paper versions, and to all the information required in order to carry out such audits, including the right of obtaining a physical or electronic copy of, or extracts from, any document or the contents of any data medium held by the audited natural or legal person, or by the audited third party.
3. Switzerland shall not prevent or raise any particular obstacle to the right of entrance into Switzerland or to the access to the premises of the agents or other persons referred to in paragraph 2 on the grounds of the exercise of their duties referred to in this Article.

4. The reviews and audits referred to in paragraph 1 of this Article may be carried out after the suspension of the application of a protocol to this Agreement pursuant to Article 19, the cessation of the provisional application or termination of this Agreement, on the terms laid down in the applicable acts of one or more Union institutions or bodies or as provided for in relevant agreements and contracts in relation to any legal commitment implementing the Union budget entered into by the Union before the date on which the suspension of the application of the relevant protocol, or the cessation of the provisional application or termination of this Agreement, takes effect.

ARTICLE 12

Fight against irregularities, fraud and other criminal offences affecting the financial interests of the Union

1. The European Commission and the European Anti-Fraud Office (OLAF) shall be authorised to carry out administrative investigations in relation to the implementation of this Agreement and its protocols, including on-the-spot checks and inspections, on the territory of Switzerland. Those investigations shall be carried out in accordance with the terms and conditions established by applicable acts of one or more Union institutions. When exercising their duties in the territory of Switzerland, the agents and investigative bodies of the Union shall act in a manner consistent with Swiss law.
2. The competent Swiss authorities shall inform the European Commission or OLAF within a reasonable time of any fact or suspicion which has come to their notice relating to an irregularity, fraud or other illegal activity affecting the financial interests of the Union, in connection with the implementation of this Agreement and its protocols.

3. On-the-spot checks and inspections may be carried out on the premises of any natural person residing in or legal entity established in Switzerland and receiving Union funds, as well as of any third party involved in the implementation of Union funds residing or established in Switzerland.
4. On-the-spot checks and inspections shall be prepared and conducted by the European Commission or OLAF in close collaboration with the competent Swiss audit authority which shall be notified a reasonable time in advance of the object, purpose and legal basis of the checks and inspections, so that the competent Swiss authorities can provide assistance. In cases where there are investigations or judicial proceedings by the EPPO, or Switzerland concerning criminal offences affecting their respective financial interests within the scope of this Agreement, Switzerland and the Union shall ensure effective mutual assistance, in accordance with the applicable legal framework, with a view to allowing their competent authorities to fulfil their duty to investigate, prosecute and bring to judgment before their courts the perpetrators of, and accomplices to, such criminal offences.

2. The total value of call for funds for a given year shall be established by applying the annual amount calculated in application of Article 7 of this Agreement, including, if applicable to the Union programme, any adjustments under Article 8 of this Agreement, and if applicable to the Union programme, any corrections under Article 9 of this Agreement.

The European Commission shall issue a call for funds in relation to the amount due at the latest one month after the termination takes effect. Switzerland shall pay this due amount within 60 days of the issue of the call for funds.

9. The interest rate for amounts receivable but not paid on the due date shall be the rate applied by the European Central Bank to its principal refinancing operations, as published in the C series of *the Official Journal of the European Union*, in force on the first day of the month in which the due date falls, or 0 %, whichever is higher, plus 3,5 percentage points.

If in relation to Switzerland's operational contribution for a given year N, the amount of the difference calculated in accordance with the method laid down in Article 9(2) of this Agreement is negative and in absolute terms exceeds 8 % of the corresponding operational contribution for year N, the future operational contribution of Switzerland for year N+2 shall be reduced by the difference between the absolute amount calculated in accordance with the method laid down in Article 9(2) for year N, and the amount which corresponds to 8 % of the corresponding operational contribution for year N.

After the end of the period referred to in Article 2(1) of this Protocol, any reductions of future operational contributions, as referred to in the first subparagraph of this paragraph, shall be applied to operational contributions of Switzerland to a succeeding programme in which Switzerland participates.
